OBJECTIVE

MERN Stack Developer with experience building scalable and user-friendly web applications, skilled in both Frontend and Backend development with a focus on clean architecture and performance. Highly self-motivated with strong problem-solving ability, attention to detail, and adaptability in dynamic environments.

EDUCATION

S.S. Dhamankar College of Commerce, Science, and Arts, Nashik 2022 - 2025
B.Sc. in Computer Science - ***CGPA: 8.95/10***

Victory Inter College, Dohrighat, Mau, U.P.
Intermediate Education (12th) - ***Percentage: 84.6%***

PROJECTS

Forever– Full Stack E-Commerce Web-Application | **Link** | **Github**

- Built a full-stack e-commerce web application to enable users to search, filter, and shop products easily.
- Addressed the need for secure, real-time checkout by integrating **JWT authentication** and payment gateways like **Razorpay and Stripe**.
- Implemented cart and order management using **React.js (frontend)** and **Node.js + Express.js (backend)**.
- Used **MongoDB** to store and retrieve product, user, and transaction data efficiently.

QuickBlog– Full-Stack Blog Web Application | **Link** | **Github**

- Developed a full-stack blog platform with admin tools to create, publish/unpublish blogs, and moderate user comments..
- Solved the problem of weak or missing blog descriptions by integrating **Gemini AI**, enabling auto-generation from titles.
- Added category filters, search, and an approval-based comment system to improve content discovery and moderation.
- Built secure, role-based workflows to ensure only approved content appears on the platform.

Task Management- Full-Stack Web Application | **Github**

- Built a responsive full-stack task board (To-Do, In Progress, Done) using **React, Node.js, and Express**.
- Integrated **MySQL with Knex.js** for efficient and structured database operations.
- Secured access with **JWT-based** authentication and structured **RESTful API** for scalability.

TECHNICAL SKILLS

Languages	HTML, CSS, JavaScript, TypeScript, SQL.
Frontend Libraries	ReactJS, Bootstrap, Tailwind CSS, Redux.
Backend / DataBases	NodeJs, ExpressJs, MongoDB, MySQL, REST API.
Tools	Visual Studio Code, Postman, Git/Github.

CERTIFICATIONS & ACHIEVEMENTS

- **Full-Stack Developer Bootcamp Certification**: Completed MERN training through Udemy.
- Completed a certification in JavaScript concepts from Namaste.dev.
- **Problem Solver Bronze Badge, CodeChef**- Solved 50+ programming problems on the platform.
- Certified in **JavaScript (Basic and Intermediate) and ReactJS** by completing coding challenges on HackerRank.
